

A resolution in opposition to any mandatory vaccine policies

Whereas the Constitutions of both the United States and the State of Washington guarantee the right of citizens to be secure in their person and property;

Whereas sensitive patient health information should never be required to be disclosed as a condition of employment or insurance in order to protect the patient; and

Whereas medical decisions should not be mandated or enforced through either legislative or executive action;

BE IT RESOLVED: The BCRP will strongly oppose any attempt to require mandatory vaccinations as a condition for any public interaction, work, travel, health care or to receive any type of government program or assistance.

Done the 3rd day of March 2022.
